

ART INTENT

At Brookland Junior we believe that art, craft and design embody some of the highest forms of human creativity. We strive to engage, inspire and challenge pupils by equipping them with the knowledge and skills to experiment, invent and create their own works of art. We encourage them to think critically and develop a more rigorous understanding of art and design.

Pupils will be taught to develop their techniques, and will include their control and use of materials, with creativity and experimentation. As part of this process, children will create a sketch book to record their observations, improve their mastery of art and design techniques, including drawing, painting and sculpture, using a range of materials such as pencil, paints and clay.

Through art, children develop their cultural experiences by learning about how art and artists, both reflect and shape our history and contribute to the culture, creativity and wealth of our nation.
