'Kind, Respectful, Best'

Headteacher – Mrs M. Barton

Tuesday 10th October 2023

Dear Parents/Carers,

We are pleased to confirm that Year 5 will be holding a "Cosmo in the classroom space day".

Bayford Observatory will be bringing into school a solar system dome so that the children can learn about space and visible see what our solar system looks like.

For this amazing experience to go ahead, we are asking for a voluntary contribution of £2 per child, which can be paid on Arbor from today (Tuesday 10th October) at 3pm.

This event will take place on the morning of Tuesday 17th October 2023 in the main school hall. The children come to school as normal on this day as this exciting event will happen during school hours.

If you have any questions, please contact your class teacher via the class email address.

We are looking forward to some active learning outside the classroom with the Year 5 children.

Kind regards,

The Year 5 Team
